REWARDS

Stand out in college admissions:

Success in an AP course lets colleges and universities know that you have what it takes to succeed in an undergraduate environment.

Earn college credits:

By taking an AP course and scoring successfully on the related AP Exam, you can save on college expenses.

Skip introductory college classes:

If you already know your preferred college major, taking a related AP course and earning a qualifying score on the AP Exam can help you advance and avoid required introductory courses.

Build college-level skills:

Since AP courses give you the opportunity to get your hands on real college-level work while still in high school, you'll get a great idea of what to expect when you move onto the next phase of your educational journey.

Computer Science Principles

Music Theory

AP & IB

Niwot High School offers both AP and IB programs. Both offer rigorous college preparatory curriculum and require a strong commitment to academics. In both programs, students can earn college credits and/or higher class placement in college classes if they earn qualifying scores on AP / IB exams.

Students are encouraged to explore both AP and IB programs in order to determine which program will best fit the needs of each individual student. For more information about AP & IB programs, contact your counselor.
